Activate Your Device

Open a web browser and go to: www.motosafety.com/getstarted

Create an account, or log in to your existing account.

Here's a copy of your device activation code: Sticker Goes Here

Follow the instructions for activating your device(s).

> Make sure the activation code on your device matches the code on screen. Or. if your activation code does not show up re-enter it and press continue.

Install Your Plug-In Tracking Device

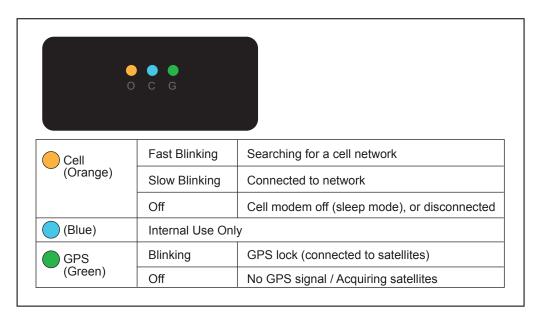

Locate the OBDII port of your vehicle and connect your device.

> If you need help locating the connector, please reference your vehicle's owner manual.

When removing the device from your vehicle, make sure

Start your vehicle, and check the lights on the GPS.

Your vehicle must be outside and not in a covered area so that it will receive GPS signal. When working properly, the orange and green lights will be on. You should see your car's location on the map (may take up to two hours).

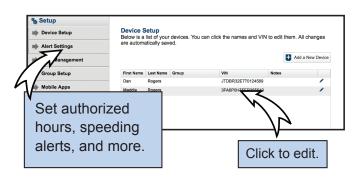

IMPORTANT NOTICE: remove device before jump starting the vehicle.
