

# Alert Settings

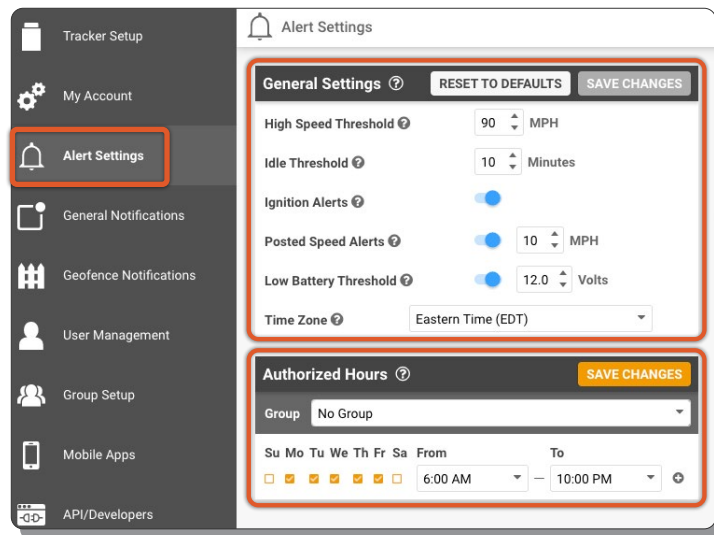

Alerts are a fantastic way to keep an eye on the activity of your vehicles. We offer a variety of Alerts and Alert Settings to allow for a customized experiences based on your personal or business needs. Here you will find information on how to manage and adjust your Alert Settings.

- 1 Log in to your Customer Portal and from the Map page click 'Setup'.

- 2 On the left menu bar select 'Alert Settings'.

- 3 Once you are on Alert Settings you will see both General Settings and Authorized Hours.

## General Settings

- 4 Set thresholds and toggle alerts based on your personal and business preferences.
  - **Tip!** Hover over the Question Marks to see a description of each setting.
- 5 Click 'SAVE CHANGES' to set your preferences.

## Authorized Hours

- 6 Set the hours of the day the vehicles are authorized to drive.
  - If a vehicle is driven outside of these defined hours the trip will be considered "Unauthorized".
  - You can choose different hours based on different Groups.
- 7 Click 'SAVE CHANGES' to set your hours.
