

# Safety Report Card

The Safety Report card is a powerful feature that gives you insight into how your driver is performing on the road. This information will give you data you need to help identify and correct driving habits that could put your driver, and others on the road, at risk. The report will also allow you to reward and encourage safe driving habits that may already be taking place.

- 1 Log in to your Customer Portal and from the Map page click 'Report'.
- 2 Select the Month and Tracker you wish to view and the Safety Report Card will populate.
- 3 Use this tool as a way to correct poor driving habits and to promote safe driving on the road.
